

## Barkaway Newsletter

### Final newsletter for 2008

Well folks the 2008 agility season is just about over and what a year you have had some fantastic results yet again on the circuit and in training.

It is really great from a trainers point of view to see the people who train at the club doing so well at agility shows and remember success is measured in a variety of ways it is not just about winning although that helps.

As most of you know I am due to go into hospital for my 2<sup>nd</sup> operation on the ankle hopefully they will get it right this time.

Due to the operation I plan to shut training down until at least Saturday 17 January and Wednesday training until February, please keep an eye on the web site for further information.

Just a couple of reminders please please check if training is on before setting out when the weather has been bad whether it is snow, frost, gales, rain or even if it is to sunny / hot please check first.

Also can you please take your poo bags home or at least deposit them in the bin at the top of the lane I am not able to take them to the skip any more as they object to having black bags full of dog poo for some reason.

I would like to take this opportunity to say thank you to you all for continuing to support Barkaway Agility especially in these economic times when money is tight and jobs are getting less.

Merry Christmas to you and your family and of course all the dogs and I look forward to seeing you all have a successful season in 2009.

The Chief
